- Use of PC or Mac (with adapter)
- Benefit: use of your own laptop
- Input source: VGA-B
- Audio source: Aux 2

Laptop via Wireless

- Use of PC or Mac
- Benefit: use of your own laptop, multiple users
- Input source: Multiple Display
- Audio source: Aux 3

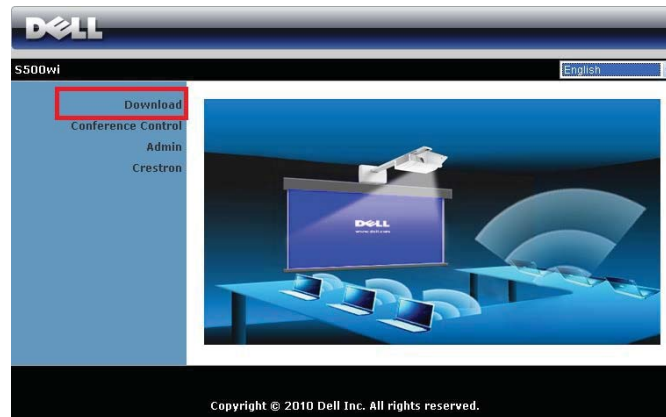

Laptop via Wireless

A 'Quick Guide' for connecting a laptop wirelessly to a Dell S500M Interactive. The guide is presented on a dark blue background with a white Dell S500M Interactive device at the top. Below the device is a white box containing three numbered steps: 1. Connect wire/wirelessly to your projector's network. See network name below. (Ensure computer WIFI is turned on). 2. Open web browser and enter the IP Address below into your browser's address bar. 3. Click on 'Download' and run the installation program. * For first time users. At the bottom of the guide, a red-bordered box contains the following information: LOGIN CODE: 1234, Network Name(SSID): DELL S500M INTERACTIVE, IP Address: 130.126.250.2.

Laptop via Wireless

- Each projector has a unique IP address
- Must download the Dell software before first use

illinois.edu
